

Sen. Jon Husted (R-Ohio) began serving Ohioans in the U.S. Senate in January 2025. Husted prioritizes legislation to secure jobs for Ohioans in manufacturing and technology, improve education, and protect Ohioans from government overreach. He serves on the Committee on Health, Education, Labor, and Pensions, the Committee on Small Business and Entrepreneurship, the Committee on Environment and Public Works, and the Special Committee on Aging.

For more than two decades, the people of Ohio have trusted him to fight for their jobs, values, and families. As Ohio's lieutenant governor, he championed common-sense solutions to make state government work better for its citizens while lowering costs. Husted expanded career technical education so more Ohio students have access to skills training and can graduate high school career-ready. Husted helped bring twenty-first century jobs to the state, including Intel's semiconductor investment—the largest manufacturing deal of its kind in Ohio's history. In the span of five years, more than 60 companies moved their operations from coastal states to Ohio. He also achieved regulatory reform by utilizing artificial intelligence to remove 5 million words from the regulatory code.
