February 27, 2026

The Honorable Sean Duffy
Secretary
U.S. Department of Transportation
1200 New Jersey Ave, SE
Washington, DC 20590

Dear Secretary Duffy,

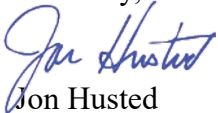

Thank you for your dedication to transforming local community development across the nation. I write today to urge your full and fair consideration of the FY 2026 Better Utilizing Investments to Leverage Development (BUILD) Grant Program application for the Brook Park Public Infrastructure Improvements project.

This project will deliver important transportation improvements that enhance safety, reduce congestion, and improve access within a key regional corridor. The upgrades will help spur development around a transformative multi-billion dollar lifestyle and entertainment district, anchored by a year-round covered stadium – which, in turn, will strengthen connections between neighboring communities, support local businesses and employers, and improve mobility for residents, workers, and visitors throughout the region.

I recognize the importance of coordinated infrastructure investment to support economic activity and quality of life. The Brook Park project reflects a collaborative, forward-looking approach to addressing shared transportation challenges and advancing long-term regional growth.

I again urge your full and fair consideration of this proposal. Thank you for your work to support the infrastructure of our nation.

Sincerely,

Jon Husted
United States Senator
